ANALYSIS OF BOOKS

PUBLISHED DURING 1920 IN THE UNITED KINGDOM

THE PUBLISHERS' CIRCULAR AND BOOK-SELLERS' RECORD records a total of 11,004 books as having been published in the United Kingdom during the year 1920. This is an *increase* of 2,382 compared with the total for 1919, and brings British publishing (so far as the number of items is concerned) almost back to the pre-war level. In view of the enormously increased production costs this phenomenal recovery must be considered eminently satisfactory.

Further, it will be seen from the Table that the greater part of the increase has taken place on "new books," which have risen by 1,529. "New editions" have increased by 971.

An examination of the Table will reveal the classes of literature chiefly responsible for the increase. The rise in Fiction (+887) is exceptionally large, though it may be viewed with apprehension by some. These may glean some comfort from the increases in Description and Travel (+225), Juvenile (+206), Science (+163), History (+103), and Law (+102), as well as from the smaller increases in practically all other classes. Religion, on the other hand, has suffered an unaccountable relapse (-87), and there are very small decreases in Education and Agriculture.

The classified totals furnish a rough indication of the attention bestowed by the public upon the various classes of literature, and it is interesting to compare the order in which these appear this year and in 1914:—

1914	1920
(1) Fiction	(1) Fiction
(2) Religion	(2) Sociology
(3) Science	(3) Juvenile
(4) Sociology	(4) Technology
(5) Technology	(5) Religion
(6) Poetry	(6) Science
(7) Juvenile	(7) Poetry
(8) Description	(8) History
(9) Literature	(9) Medicine
(10) History	(10) Description
(10) Medicine	(11) Biography
(11) Biography	(12) Literature
(12) Military and Naval	

The following totals for the last ten years are also of considerable interest:—

Year.	New books.	New editions.	Total.
1911 ...	8,530 ...	2,384 ...	10,914
1912 ...	9,197 ...	2,870 ...	12,067
1913 ...	9,541 ...	2,838 ...	12,379
1914 ...	8,863 ...	2,674 ...	11,537
1915 ...	8,499 ...	2,166 ...	10,665
1916 ...	7,537 ...	1,612 ...	9,149
1917 ...	6,606 ...	1,525 ...	8,131
1918 ...	6,750 ...	966 ...	7,716
1919 ...	7,327 ...	1,295 ...	8,622
1920 ..	8,738 ..	2,266 ..	11,004

The monthly table shows three well-marked periods of activity. The old Spring publishing season came back to its own, but divided into two periods, with March and June as their respective centres. The Autumn season is becoming still more prominent, as was noted last year.

Further detailed information regarding the year's publishing is supplied by the appended analytical tables. It should be noted that "Education" includes only books about educational theory and practice, and not text-books on special subjects which are classed under their subjects; and that all publications of 48 pages or less are counted as "pamphlets." It would be possible to swell the totals to an enormous extent by counting all kinds of printed matter (such as ephemeral pamphlets and leaflets, local government publications, musical texts, &c.), but the purpose of this table is to represent the book publishing activity of the United Kingdom. This should be noted in comparing the figures with those of other countries, in some of which single copies of newspapers are counted separately. In these tables each complete publication is counted as one, whether it is in one or more volumes. Serials that appear later as a collected volume are counted as an ordinary book on the appearance of that volume; so that, for example, the series of "Statutory Rules and Orders" issued by the Government, and amounting to hundreds in the year, are counted as one item on the appearance of the annual collected volume.

PREFATORY NOTE

THIS eighty-fourth yearly issue of THE ENGLISH CATALOGUE OF BOOKS comprises the titles (under authors, and subjects or titles) of works published during 1920, and also of some received too late for inclusion in the eighty-third issue.

The main entry for each book begins with the author's surname (if known) in **heavy type**. As an index to these "Author" records, entries are also made under the titles, commencing with their most important words (which usually indicate the *subjects* with which the books deal), or with the first words; the name or word under which the main entry appears is printed in *italics* in these index entries, thus giving a reference to the place where the full information about a book may be found. Main entries and index entries are in one alphabet.

Writers with compound names are entered under the first part of the name, *e.g.* :—

Baring-Could (Sabine)

and accordingly must be looked for in that order. References are also made, however, from the last part of the name.

The publications of learned Societies are recorded in an Appendix.

The names and addresses of the Publishers of Great Britain and Ireland, followed by those of the principal publishers in the United States and Canada, will be found at the end of the volume. The telegraphic and cable addresses and telephone numbers have been added when known.

Following the Preface is an analysis of the books of the year 1920, showing in detail the number of works in each class of literature, and giving the proportions of new books, translations, pamphlets, and new editions.

Every effort has been made to obtain the full particulars of the books noted. Special enquiries were made in every case where information was deficient; and most publishers courteously responded. In the cases where entries have been included without prices, the fault lies with the publishers concerned.

Hearty thanks are due to the many publishers, secretaries, librarians, authors and bibliographers who have assisted in making this book more correct and comprehensive than it would have been otherwise.

The Editor will be glad to have particulars (author, title, size, price, publisher, and month of publication) of any work which may have been omitted. Information regarding each book should be given on a separate slip of paper or postcard. It should be addressed to *The Editor of THE ENGLISH CATALOGUE OF BOOKS*. "Publishers' Circular" Office, 19, Adam Street, Strand, London, W.C. 2.

DIRECTORY OF PUBLISHERS

Publishers are invited to send us their Telegraphic Addresses and Telephone Numbers.

*Those sent will be found below between square brackets [], and separated from each other by a semicolon (;)
The Editor will be glad to be notified of any inaccuracy in the following lists for correction in subsequent volumes.*

This list of Publishers, with their Addresses, has been compiled principally with a view to supplying information regarding the books in the English Catalogue. This will explain the inclusion of some firms in the list who can scarcely, in the strict acceptation of the term, be called Publishers, since the publication of books forms only an occasional part of their business.

NEW 8s. 6d. NET NOVELS

THE JOHN LONG £500 PRIZE NOVEL. By a New Author.

GOOD GRAIN, By EMMELINE MORRISON.

With a view to discovering a talented New Writer, Messrs. John Long offered, in April, 1920, the Prize of £500 for the Best First Novel, the competition for which closed on the 31st December, 1920. £500 is by far the biggest Prize ever offered for a First Novel. It is, therefore, not surprising that a very large number of Novels were submitted, and many have been found to attain a really high standard. That selected as the Prize-Winning Novel is indisputably one of surpassing merit, and it is safe to predict that it will prove a real outstanding popular success.

THE SOMETHING BETTER. By LILIAN ARNOLD, author of "Also Joan," &c.
